

Agenda for Week 14: November 6-10, 2017

As we continue our studies of the Middle East, we are now discussing the three types of economic systems, the benefits of voluntary trade, the functions of OPEC, and factors that influence economic growth all in relation to specific areas in the Middle East.

This is what we plan to accomplish this week. Please check my “Daily Blog” on my webpage to see what was completed each day. If students are out, they should check the blog to work on what they have missed if possible.
